WORK EXPERIENCE

Amazon

Vancouver, BC

Software Development Engineer Intern – Product Classification Machine Learning

May - July 2019

- This upcoming summer, I will be completing a SDE internship on the Product Classification ML team

Facebook

Menlo Park, CA

Software Engineer Intern - Ads Manager and Metrics

May - Aug 2018

- Developed an end-to-end metric consistency framework for Ads Manager to detect UI metric inconsistencies
- Configured database tables through which ad metric information was communicated through queries
- Refactored much of the existing codebase and increased test coverage through unit and integration tests

SAP

Vancouver, BC

Agile Developer Intern - Quality Tools and Infrastructure

May - Dec 2017

- Developed several Jenkins jobs to manage the workflow of builds and background tasks
- Automated the daily merge process of 30+ workstream branches by establishing key prerequisites prior to merge
- Maintained stability of SAP BusinessObjects Cloud by writing Python scripts to automate modularized UI tests

TEACHING

University of British Columbia

Vancouver, BC

Teaching Assistant – CPSC 221: Basic Data Structures and Algorithms

Sept – Dec 2018

- Provided weekly individual guidance and instruction regarding course material during office hours
- Facilitated weekly lab sessions by assisting students with C++ programming assignments
